Indexes

SUBJECT INDEX
Volume 33

A

Abrasions, healing, selected dressings and, 33:145
Abstracts, 33:82, 33:179, 33:279, 33:375
Academia, athletic training, development of scholarship in, 33:271
Agility, high school basketball players, gender differences in anthropometric and performance measures, 33:229
Alcohol, use among female NCAA Division I athletes, basketball/softball/volleyball, 33:163
Ankle, unstable, effect of strength training on strength development and joint position sense, 33:310
Anterior cruciate ligament
  reconstruction, electromyographic investigation of elastic-tubing closed kinetic chain exercise after, 33:328
  tear, predictors, male versus female NCAA Division I basketball players, 33:118
Arthrometer, KT-1000, knee injuries, measurement in uninjured subjects and, 33:233
Athletes, injured, treatment with nonsteroidal anti-inflammatory drugs, pharmacology, 33.259
Athletic trainers
  in cancer detection, educational role in self-examination, 33:45
  employment characteristics, college/sports medicine clinic/high school settings, 33:254
  factors affecting workloads of, in accredited educational programs, 33:244
  fibromyalgia and chronic fatigue syndrome update, 33:359
  intercollegiate head, organizational commitment, work environment, 33:54
  sexual harassment and, 33:171
  student, perceptions of clinical supervisor behaviors, critical incident study, 33:249
Athletic training
  continuing education in, adult learning theory and, 33:72
  developing scholarship in, 33:271
  education, effectiveness of computer program versus traditional lecture, 33:238
  services, perceptions of, collegiate athletes, 33:347
  undergraduate students, learning style assessment, 33:50

B

Back, pain, pars interarticularis stress reaction/spondylolysis/spondylolisthesis and, 33:351
Balance, measurements, Biodex Stability System and, examination of, postural control, 33:323
Basketball
  female NCAA Division I players
    alcohol use among, 33:163
    use of nonprescription weight loss products, 33:41
  high school players, gender differences in anthropometric and performance measures, 33:229
  NCAA Division I players, male versus female, predictors of anterior cruciate ligament tears, 33:118
Biceps, distal tendon rupture, collegiate football player, case report, 33:62
Biodex Stability System, examination of balance measurements produced by, postural control, 33:323
Blood lactate, clearance, comparative effects of sports massage/active recovery/rest after supramaximal leg exercise, 33:30
Book reviews, 33:86, 33:182, 33:283, 33:378
Braces, taping and, patellar, effect on patellar position, MRI of patients with patellofemoral pain, 33:16
Brain injury, acute subdural hematoma, mild concussion and, case report, 33:264
Breast cancer, educational role of athletic trainers, teaching self-examination, 33:45

C

Chronic fatigue syndrome, fibromyalgia and, update for athletic trainers, 33:359
Computers, program versus traditional lecture, effectiveness in athletic training education, 33:238
Concussion
  data, normative data on cognitive tests and, 33:36
  mild, acute subdural hematoma after, case report, 33:264
Continuing education, athletic training, adult learning theory and, 33:72
Contrast therapy, human gastrocnemius intramuscular temperature and, 33:336
Couplant, Flex-all 454, thermal ultrasound with, temperature rise in human muscle and, 33:136
Critical incident study, perceptions of clinical supervisor behaviors, student athletic trainers and, 33:249
Cryotherapy
  human gastrocnemius intramuscular temperature, contrast therapy and, 33:336
  two methods, temperature changes in human leg during and after, 33:25
Current Literature, 33:90, 33:187, 33:291, 33:384

D

Data analysis, statistical, initial stages, technical note, 33:69
Diuretics, use of nonprescription weight loss products, female NCAA Division I athletes, 33:41
Dressings, healing of abrasions and, 33:145

E

Editorials, 33:13, 33:115, 33:204, 33:308
Education
  accredited programs, athletic trainers in, factors affecting workloads, 33:244
  athletic training
    development of scholarship in, 33:271
    effectiveness of computer program versus traditional lecture, 33:238
  student athletic trainers
    learning styles assessment, 33:50
    perceptions of clinical supervisor behaviors, critical incident study, 33:249
Elderly, women, osteoporotic fractures and physical activity, 33:207
Electromyography
  elastic-tubing closed kinetic chain exercise, anterior cruciate ligament reconstruction and, 33:328
  reliability, lower extremity muscle analysis and, during lateral step-up exercise, 33:156
Emphysema, subcutaneous, pneumomediastinum in female track and field athlete, case report, 33:168
Employment, college/sports medicine clinic/high school settings, athletic trainers and, 33:254
Exercise
  eccentric, delayed-onset muscle soreness and, whirlpool therapy for, 33:222

elastic-tubing closed kinetic chain, electromyographic investigation, anterior cruciate ligament reconstruction and, 33:328
lateral step-up, electromyographic reliability and lower extremity muscle analysis during, 33:156
open/closed kinetic chain, shoulder joint reposition sense and, healthy subjects, 33:315
supramaximal leg, comparative effects of sports massage/recovery/rest on blood lactate clearance after, 33:30
upper and lower extremity, temperature changes in deep muscles during, 33:211

F

Fibromyalgia, chronic fatigue syndrome and, update for athletic trainers, 33:359
Flex-all 454, couplant, thermal ultrasound with, temperature rise in human muscle and, 33:136
Flexibility
anthropometric and performance measures, gender differences in, high school basketball players, 33:229
dorsiflexion range of motion, changes with ultrasound heat and stretch routine, 33:141
Football
collegiate player
rupture of distal biceps tendon, case report, 33:62
spermatic cord hematoma, case report, 33:65
high school player
idiopathic thrombocytopenic purpura, case report, 33:269
pneumomediastinum, case report, 33:362
Footwear, racewalking injuries, nature and incidence, 33:122
Fractures, osteoporotic, physical activity and, older women, 33:207

G

Ganglion cyst, college swimmer, 33:365
Gender, differences in anthropometric and performance measures, high school basketball players, 33:229

H

Hamstring, concentric versus enhanced eccentric strength training, clinical implications, 33:216
Head, mild injury data, normative data on cognitive tests and, 33:36
Head injury, acute subdural hematoma, mild concussion and, case report, 33:264
Healing, abrasions, selected dressings and, 33:145
Hematoma
acute subdural, after mild concussion, case report, 33:264
spermatic cord, collegiate football player, case report, 33:65
Hemorrhage, idiopathic thrombocytopenic purpura, high school football player, case report, 33:269
Hot packs, 1-MHz ultrasound treatments and, muscle temperature increase and, 33:21
Hydrotherapy, whirlpool, delayed-onset muscle soreness and, 33:222

I

Ice packs, two methods of cryotherapy, temperature changes in human leg during and after, 33:25
Infection, viral, idiopathic thrombocytopenic purpura, high school football player, case report, 33:269
Isokinetics, concentric versus enhanced eccentric strength training, hamstring, clinical implications, 33:216

J

Joint
position sense, strength development and, effect of strength training on, unstable ankles, 33:310
reposition sense, shoulder, open/closed kinetic chain exercise, healthy subjects, 33:315

K

Knee
anterior cruciate ligament reconstruction, electromyographic investigation of elastic-tubing closed kinetic chain exercise after, 33:328
anterior cruciate ligament tear, predictors, male versus female NCAA Division I basketball players, 33:118
injuries
anterior tibial displacement and, KT-1000 arthrometer measurement in uninjured subjects, 33:233
electromyographic reliability and lower extremity muscle analysis during lateral step-up exercise, 33:156
patellar taping and bracing, effect on patellar position, MRI of patients with patellofemoral pain, 33:16
patellar tendon, temperature changes and therapeutic ultrasound in, 33:130

L

Lachman test, knee injuries and anterior tibial displacement, KT-1000 arthrometer measurement in uninjured subjects and, 33:233
Learning
styles, undergraduate athletic training students, 33:50
theory, adult, continuing education in athletic training, 33:72
Leg
supramaximal exercise, comparative effects of sports massage/recovery/rest on blood lactate clearance after, 33:30
temperature changes in, two methods of cryotherapy, 33:25
Letters to the editor, 33:15, 33:116, 33:206
Ligaments, anterior cruciate
reconstruction, electromyographic investigation of elastic-tubing closed kinetic chain exercise after, 33:328
tears, predictors in male versus female NCAA Division I basketball players, 33:118
Lumbar vertebrae, pars interarticularis stress reaction, spondylolysis, and spondylolisthesis progression and, 33:351

M

Magnetohydrodynamic effects, flexible magnets, pain perception and recovery time with, muscle microinjury and, 33:150
Magnets, flexible, pain perception and recovery time with, muscle microinjury and, 33:150
Muscles
deep, temperature changes during upper and lower extremity exercise, 33:211
delayed-onset soreness pulsed ultrasound and, 33:341
whirlpool therapy and, 33:222
distal biceps tendon rupture, collegiate football player, case report, 33:62
human gastrocnemius intramuscular temperature, contrast therapy and, 33:336
lower extremity, electromyographic reliability and, during lateral step-up exercise, 33:156
microinjury, pain perception and recovery time, flexible magnets and, 33:150
temperature increase, hot-pack and 1-MHz ultrasound treatments and, 33:21

N

Neuropsychological testing, normative data on cognitive tests, comparison with athletes sustaining mild head injury, 33:36
Nonsteroidal anti-inflammatory drugs, treatment of injured athletes, pharmacology, 33:259

O

Organizational commitment, head intercollegiate athletic trainers and, 33:54
Osteochondritis dissecans, college swimmer, 33:365
Osteoporosis, fractures, physical activity and, older women, 33:207

P

Pain
back, pars interarticularis stress reaction, spondylolysis, and spondylolisthesis progression and, 33:351
delayed-onset muscle soreness, pulsed ultrasound and, 33:341
patellofemoral, MRI, effect of taping and bracing on patellar position, 33:16
perception, recovery time and, muscle microinjury, flexible magnets and, 33:150
retrosternal chest, pneumomediastinum in high school football player, 33:362
Pars interarticularis, stress reaction/spondylolysis/spondylolisthesis and, low back pain, 33:351
Patella, tendon, temperature changes and therapeutic ultrasound in, 33:130
Pharmacology, nonsteroidal anti-inflammatory drugs, treatment of injured athletes, 33:259
Physical activity, osteoporotic fractures and, older women, 33:207
Pneumomediastinum
female track and field athlete, case report, 33:168
high school football player, case report, 33:362
Policy, sexual harassment, athletic trainers and, 33:171
Posture
control, Biodex Stability System, examination of balance measure produced by, 33:323
unilateral control, dominant and nondominant extremities, healthy subjects, 33:319
Proprioception
shoulder joint reposition sense, open/closed kinetic chain exercise and, healthy subjects, 33:315
unstable ankles, effect of strength training on strength development and joint position sense, 33:310

R

Racewalking, injuries, nature and incidence, 33:122
Range of motion, dorsiflexion, changes with ultrasound heat and stretch routine, 33:141
Rehabilitation
athletic injury, stress management in, 33:372
two methods of cryotherapy, temperature changes in human leg, 33:25
unilateral postural control, dominant and nondominant extremities, healthy subjects, 33:319
Research, statistical data analysis, technical note, 33:69

S

Scholarship, development of, athletic training, 33:271
Scrotum, spermatic cord hematoma, collegiate football player, case report, 33:65
Sexual harassment, concern of athletic trainers and, 33:171
Shoulder, joint reposition sense, open/closed kinetic chain exercise, healthy subjects, 33:315
Softball
basketball/volleyball and, alcohol use among female NCAA Division I athletes, 33:163
female NCAA Division I athletes, use of nonprescription weight loss products, 33:41
Spermatic cord, hematoma, collegiate football player, case report, 33:65
Sports massage, active recovery/rest and, comparative effects on blood lactate clearance after supramaximal leg exercise, 33:30
Sports medicine
athletic injury rehabilitation, stress management in, 33:372
clinic, college/high school and, employment settings for athletic trainers, 33:254
Sprains, ankle, effect of strength training on strength development and joint position sense, 33:310
Statistical data analysis, initial stages, technical note, 33:69
Strength training
concentric versus enhanced eccentric, hamstring, clinical implications, 33:216
effects on strength development and joint position sense, unstable ankles, 33:310
Stress management, athletic injury rehabilitation and, 33:372
Stretching, ultrasound heat and, changes in dorsiflexion range of motion with, 33:141
Student-athletes, collegiate, perceptions of athletic training services, 33:347
Swimming, college, osteochondritis dissecans of talar dome, 33:365

T

Talar dome lesions, college swimmer, 33:365
Taping, braces and, patellar, effect on patellar position, MRI of patients with patellofemoral pain, 33:16
Temperature
changes
deep muscles, during upper and lower extremity exercise, 33:211
therapeutic ultrasound and, in patellar tendon, 33:130
human gastrocnemius intramuscular, contrast therapy and, 33:336
rise, human muscle, thermal ultrasound with Flex-all 454 couplant, 33:136
Tendons
distal biceps, rupture, collegiate football player, case report, 33:62
patellar, temperature changes and therapeutic ultrasound in, 33:130
Testicular cancer, educational role of athletic trainers, teaching self-examination, 33:45
Thrombocytopenic purpura, idiopathic, high school football player, case report, 33:269
Tibia, anterior displacement, knee injuries and, KT-1000 arthrometer measurement in uninjured subjects and, 33:233
Track and field, female athlete, pneumomediastinum in, case report, 33:168

U

Ultrasound
heat, stretch routine and, changes in dorsiflexion range of motion with, 33:141
1-MHz treatments, hot-pack and, muscle temperature increase and, 33:21
pulsed, delayed-onset muscle soreness and, 33:341
therapeutic, temperature changes in patellar tendon, 33:130
thermal, with Flex-all 454 couplant, temperature rise in human muscle, 33:136

V

Valsalva maneuver, pneumomediastinum, female track and field athlete, case report, 33:168
Video reviews, 33:89, 33:289, 33:383
Virus, infection, idiopathic thrombocytopenic purpura, high school football player, case report, 33:269
Volleyball
female NCAA Division I athletes, use of nonprescription weight loss products, 33:41
softball/basketball and, alcohol use among female NCAA Division I athletes, 33:163

W

Walking, racewalking injuries, nature and incidence, 33:122
Weight loss, nonprescription products, female NCAA Division I athletes, 33:41
Whirlpool therapy, delayed-onset muscle soreness and, 33:222
Work environment, organizational commitment, head intercollegiate athletic trainers and, 33:54
Workloads, factors affecting, athletic trainers in accredited educational programs, 33:244
Wound care, healing of abrasions, selected dressings and, 33:145
